PROFESSIONAL SUMMARY

B.Sc. Information Technology graduate (9.63/10 CGPA) with practical experience developing 3 cross-platform mobile and web applications using Flutter, Dart, and Python. Engineered client-side architectures featuring Riverpod state management, online REST API integrations, and offline caching via SharedPreferences. Seeking an entry-level Flutter Developer position.

TECHNICAL SKILLS

Languages: Dart, Python
Mobile Development: Flutter, Flutter Widgets, Material Design 3, Responsive UI, Screen Navigation
State Management & Storage: Riverpod, setState, RESTful APIs, JSON Serialization, SharedPreferences
Developer Tools: Git, GitHub, Visual Studio Code, Streamlit
Core Competencies: Client-Side Architecture, Asynchronous Programming, UI Prototyping, Code Review

KEY PROJECTS

SONEXA – Android Music Streaming Application GitHub | APK Release
Tech Stack: Flutter, Dart, Riverpod, Audius & iTunes REST APIs, SharedPreferences

- Engineered an Android audio streaming application with 5 modular screens maintaining 60 FPS UI performance.
- Integrated Audius and iTunes REST APIs to parse and stream 1,000+ online tracks with client-side JSON caching.
- Architected background playback controls and an interactive persistent mini-player using Riverpod, reducing widget rebuilds by 40%.
- Configured theme switching (Dark/Light mode) and volume states with SharedPreferences across 100% of sessions.

FREEGI – Grocery Shopping Application GitHub | Download APK
Tech Stack: Flutter, Dart, SharedPreferences, Material Design 3

- Developed a multi-screen e-commerce interface covering product catalogs, category filters, cart, and profile views.
- Created 15+ reusable Flutter custom widgets, standardizing design patterns and reducing duplicate code by 30%.
- Structured offline-first storage with SharedPreferences, maintaining 100% of cart items and settings across app relaunches.
- Optimized bottom navigation routing flow, achieving low-latency screen transitions under 100 milliseconds.

DHANVIQ – Personal Finance Management Application GitHub | Download APK
Tech Stack: Flutter, Dart, SharedPreferences, Local Storage

- Built a personal finance application to record and manage income, expenses, monthly budgets and savings goals.
- Added spending insights and dedicated interfaces to review transactions and monitor financial activity.
- Maintained financial records using local storage for persistent access across application sessions.

AI Resume Analyzer – Web Frontend & Interface GitHub | Live Demo
Tech Stack: Python, Streamlit, SQLite, Git

- Launched an interactive resume analysis interface using Streamlit, evaluated on 50+ candidate resumes.
- Designed structured feedback forms and dashboard visual components, increasing user task completion by 20%.
- Established SQLite database schemas to record feedback data and assessment history across 3 evaluation modules.

EDUCATION

Bachelor of Science in Information Technology (B.Sc. IT) **2023 – 2026**
Matrushri Kashiben Motilal Patel Senior College of Commerce & Science, University of Mumbai **CGPA: 9.63/10**
Class XII – Maharashtra State Board 2022 – 2023
Class X – Maharashtra State Board 2020 – 2021

HONORS & ACHIEVEMENTS

- **Academic Gold Medalist:** Recognized for outstanding academic performance.
- **Department Rank 1:** Secured first rank in the department.
